Velcro loop is sewn on the back of the attachment bands to keep the inner and outer belts together in our police equipment belt.

The attachment systems is easy to use both on standard 25 mm MOLLE systems as well as on the Swedish 20 mm system or on 50 or 60 mm belts

The hand cuff pouch can be attached high or low on the belt.

The flap closes with Velcro for fast and easy closure and with a press button for a safer closure.

The pouch is soft and yet firm to be easy to work with.

Attaching handcuff pouches and holder

The Tanga handcuff holder is placed on the outer belt with the buckle facing down and the loop Velcro out on the back of the outer belt.

Wrap the hook Velcro up and place it on top of the loop Velcro on the back of the holder.

To close the holder, insert the male part of the buckle into the female part of the buckle.

To attach the hand cuff pouch on the belt, open the attachment bands and wrap them around the outer belt.

Push the attachment bands under the security bands on the back of the pouch. See below for attaching the pouch high or low.

Push the semi hard end of the attachment bands into the channel in the lower end of the pouch.

The pouch can be attached like this, low.

It can also be attached like this, high.

This pouch is attached high.
