

# Combination glove holder -09

## GDP-09B

W=9 x H=10 x D=2-4 cm.  
Weight: 40 g.

### Features

A versatile glove holder for two pairs of surgical gloves or one pair of normal gloves.

Two inside compartments for disposable gloves.

Fits most gloves vertically or horizontally.

Vertical leaves more space for other things on the belt.

There is exposed rubber on the inside of the holder to prevent the gloves from slipping out of the holder.

Velcro attachment system makes it possible to attach the pouch on any equipment vest or belt.

It is attached on the belt with the Velcro bands on the back of the pouch.

You can attach the holder without removing the pouches from the belt.

Velcro closed straps makes it possible to attach the pouch on a belt without removing the pouches on the belt. Velcro loop on the back attaches to our police equipment belt.

Vertical carrying of gloves takes less space on the belt.

Horizontal carrying of gloves.

Inside the pouch, two compartments for surgical gloves are placed.

# Combination glove holder -09

## Horizontal attachment.

Take the two parts of the holder apart.

This is the loop Velcro on the holder that shall be matched with the 20 mm wide hook Velcro on the strap,

Push the strap under the 10 mm webbing on the back of the holder. Connect the hook Velcro on the strap with the loop on the holder.

Make sure the strap sits like this. The strap under the 10 mm webbing and the Velcro pieces connected.

Fold over the 20 mm bands with Velcro and close them over the strap.

This is how it looks when ready.

From the front/side.

The holder attached to a belt.
